Driving Evolution by Embracing the Digital Future

Digital Maturity Assessment

The MVP Digital Maturity Assessment is an evaluation of the insurer's digital maturity, providing point-in-time optics used to influence future digital planning.

The insurer's Digital Maturity is benchmarked against MVP's evaluation of insurance industry competitors and assessment of industry trends and best practices.

MVP provides a detailed report representing a breakdown of factors assessed within comprehensively measured groups.

Digital Strategy

Depending where you are in your digital journey, MVP delivers a complete strategy or components of a strategy.

MVP will perform an assessment of your current digital capability to future-state requirements and develop a documented plan as a basis for communicating your digital future. We will identify a proposed timeline and list of projects to realize the digital vision and execution of the digital plan.

Digital Plan Management

MVP understands the dynamics of our clients' projects, organizations and infrastructures. We offer seasoned Program and Project Management resources to help implement your digital plan, collaborate with leaders to move projects forward, develop roadmap updates, governance recommendations and executive reporting.

Digital Data Assessment

The digital strategy has been defined and your data is coming in from everywhere both internally and externally (e.g., drones, IoT, wearables, legacy systems, etc.). What's the plan?

MVP will assess your data needs against your digital strategy and roadmap. We can evaluate risk factors, gaps and capabilities, and success factors, and provide a documented analysis with observations of findings of the data state readiness to support the digital strategy.

Solution Development & Emerging Technology

Insurers are looking to take advantage of advanced and emerging technologies such as robotic process automation, artificial intelligence and machine learning to lengthen the lives of legacy core systems and make more accurate and accelerated decisions.

Whether it's developing a new digital agent portal with real-time feeds or a 360-degree view of the customer, MVP provides the resources to make it happen.

Vendor Selection

MVP can facilitate a thorough evaluation of potential technology solutions and services partners, leveraging our extensive industry experience and vendor insights. Whether it be an RPA platform or a new PAS system to support your digital journey, our process will assist with getting to the best fit for your digital future.
